

FROM A DEVASTATING BEDRIDDEN ILLNESS ...

In April 2011, Greg noticed a sudden health change. He became dizzy and anxious. His blood pressure spiked, and he couldn't stand up. He was hospitalized and after tests and CT scans, doctors told him he was fine and they sent him home. His condition worsened. He experienced panic attacks 4-5 times a day. His heart raced, and he had trouble holding a telephone for more than a few minutes as he grew weaker by the day. Greg had increasingly intensifying anxiety and systemic pain. By July, he had slipped further into an emotional and physical depression, and now unable to drive or work, he withdrew socially. His conditioned plummeted and he became too weak to get out of bed.

GREG'S DAILY REGIMEN OF SUPPLEMENTS WHILE ILL IN 2011

Greg credits the healing conversations with his friend Cary Nosler, "Captain Carrot," internationally renowned health

and fitness expert and health radio host, for giving him the encouragement to face each day. Later that fall, Greg was diagnosed with Lyme disease. Greg's prognosis for healing was almost hopeless. The doctor told him, "You may recover in a few months, a few years, or maybe never."

THROUGH A JOURNEY OF FAITH ...

Greg begged God, "Just take my life or give me the strength to heal." Part of the healing protocol for Lyme disease was to **drink significant amounts of healing water, strengthen the immune system and balance hormone levels to clean and heal his body.** Greg's home had been equipped with a whole house reverse osmosis filtration system years prior to his illness. Regardless of this precaution he still felt the effects of Lyme disease to the full extent of its symptoms. He began reading everything he could find on types of water, how the body cleanses itself, and accessed research from around the world on Lyme disease healing through alkaline and negative-ion water. Greg was astounded

by what he learned. Firstly, that his home in Northern California had a notorious reputation for dangerous drinking water. And secondly, **he discovered a type of water that would cleanse his body more completely, oxygenate his cells, and hydrate his organs better than all other types of water,** including his whole house reverse osmosis filtration system.

The water purification system generating this extraordinary water was commonly used in schools and hospitals throughout Korea and Japan. In fact, he discovered that 1 in 5 homes in Korea use this water purification, alkalizing, negative-ion system. Greg contacted the best healing water manufacturer directly in Korea. In no time, Greg was drinking his body back to terrific health! He was determined to offer this amazing water machine through the company he founded, a new division specifically dedicated to water, called Ion Thrive (ionthrive.com).

... TO THRIVING IN HEALTH

In the meantime he felt good enough to challenge himself to a gruesome 5 mile Spartan obstacle race, competing against those who were a lot younger group of people yet finishing in TOP 50% total rank at the age of 54. It was a

miracle in itself to finish the race.

With each discovery on his healing journey, Greg had been transformed. Shortly after, he began to research the healing properties of molecular hydrogen water as well. Ion Thrive unveiled its NEW and Amazing Hydrogen machine! Working with a company with over 35 years of water research, its delivery

system and with over 100 water system related patents in Korea. He believes the **healing water is the foundation of good health** and now Ion Thrive became the center of healing water with its flagship products, Hydrogen and Alkaline machines and helping many to regain their vibrant health.

NEXT GENERATION HEALING WATER AND SUPERIOR FILTRATION TO DETOXYFY, HYDRATE, AND BALANCE

With Greg's background in electrical engineering, premedical education, medical laser and business acumen, he found the courage to create a formulation to assist his precious daughter in her health challenges. Over the span of 25 years of nutrition research, education and business expertise, little did he know his experience and ventures would culminate into helping people world-wide.

Greg has triumphed in adversity, overcome health challenges and built a successful business with even bigger plans for to help people Thrive!

HYDROGEN WATER is a Therapeutic for 8 of the Top 10 Causes of Death in the US!

- ✓ Cardiovascular Disease
- ✓ Kidney Disease (Nephritic/Nephrosis)
- ✓ Diabetes
- ✓ Flu/Pneumonia
- ✓ Alzheimer's Disease
- ✓ Malignant Tumors
- ✓ Cerebrovascular Diseases
- ✓ Chronic Respiratory Disease

The ION THRIVE HYDROGEN WATER Machine supplies 1575 ppb (parts per billion) Hydrogen.

ALKALINE WATER helps

- ✓ Restore/maintain your body's pH balance
- ✓ Remove pesticides from fruits and vegetables
- ✓ Revive wilted vegetables
- ✓ Remove phytic acid from grains by soaking them
- ✓ Tenderize meat by marinating

ALKALINE WATER helps treat 4 Major Gastroenteric Troubles*

- ✓ Indigestion
- ✓ Intestinal Dysbiosis
- ✓ Chronic Diarrhea
- ✓ Hyperacidity

*Verified by the Korean Food & Drug Administration (KFDA) for reliability, safety, and validity.

AWARD WINNING!

- Higher Levels of Hydrogen Content
- No Water Tank (Standing Water Loses Hydrogen Content)
- Healthier Ion Separation Membrane System
- Outstanding filtration—Advanced 3-Filter System (Pre-Carbon, NanoFilter, Post Carbon)
- Filter Quality Monitors (Electronic Chips and Verbal Warnings to Ensure the Healthiest Water Quality)

Over 50 International Recognition Awards/Certifications Presented!

- New Ceramic Valve System
- Odorless (No Ozone Smell)
- Tastes great!
- Effective Water Purification
- Comprehensive Water Disinfection
- Auto-Cleaning Function

PRAISE FOR HYDROGEN WATER

“Persistent oxidative stress is one of the major causes of most lifestyle-related diseases, cancer and the aging process. Studies have shown that hydrogen water not only affects against oxidative stress, but also various anti-inflammatory and antiallergic reactions.”

DR. ARLENE TAYLOR
Brain Specialist

“Adequate hydration with hydrogen-rich water preexercise reduced blood lactate levels and improved exercise-induced decline of muscle function ... these preliminary results may suggest that hydrogen water may be suitable hydration for athletes.”

KOSUKE AOKI
Graduate School of Comprehensive Human Sciences

“Hydrogen can act as a scavenger of ROS, which may be produced secondarily by the tumor, leading to cell death ... H3 treatment is able to enhance anticancer activities ... resulting in anti-oxidative effects, higher cell apoptosis activities, and increased 5-FU (chemotherapy) efficacy more significantly than non-H3 Water.”

JOSHUA RUNTUWNE
Kagoshima University Graduate School of Medicinal and Dental Sciences

PREMIUM FILTRATION

Ion Thrive Hydrogen and Alkaline Water Machines filter out particles as small as just .001 microns!

- Bacteria members of the genus Streptococcus, including those that cause strep throat, sepsis, meningitis, pneumonia and other forms of bacterial infection are between 0.5-2.0 microns in diameter
- Virions (or viruses) which range between 0.02-0.25 microns
- Microplastics which can be as small as 0.01 microns
- Pharmaceutical particles which range from 0.01-5,000 microns

For some perspective ...

USES FOR HYDROGEN WATER

Hydrogen water for drinking

- This is the recommended level for continuous drinking.
- Drink this water before, during, and after exercising.

Strong Hydrogen water for cooking

- Use it to cook rice to maintain natural flavours and glossy shine.
- Maintain their nutrients and color better.
- This is a good level for making soups.
- Soak beef and pork in this water to bring out the natural flavors.

Ozone Water for cleaning

- Good for gargling and brushing your teeth.
- Washing your face.
- Remove impurities from fish, vegetables and fruits.
- Soak chopping board and dish towels to sterilize them. The oxidizing effect at this level is good for treating minor cuts or wounds. This helps to speed up healing of the skin.

Purified Water for general use

- Filtered water without ionization.
